DETAILED ACTION

This communication is in response to Applicant's Amendments and Remarks filed 18 February 2007.

Status of Claims

Claims 1-14 and 18-22 are currently pending. Claims 14-17 have been canceled.

Claims 1 and 8 are independent claims. Claims 4, 6, 7, 8, 13, 18, 19 and 20 are currently amended. Claims 21 and 22 are new claims.

Claim Objections

The objection to claim 6 is withdrawn. The objection to claim 15 is moot, as the claim has been canceled.

Claim Rejections - 35 USC § 112

The 35 U.S.C. 112 rejections are withdrawn or are moot, as the claims have been cancelled.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

Application/Control Number: 10/066,238 Page 3

Art Unit: 3693

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1-7 and 8-22 are rejected under 35 U.S.C. 102(e) as being anticipated by Knauss et al (U.S. Patent No. 7,043,687 B2, hereinafter Knauss).

- 1. In reference to claims 1 and 8, Knauss discloses a method, system and apparatus comprising:
 - a. receiving a message having the first data representation from the internal business process (abstract; col. 1-3); and
 - b. automatically converting the message having the first data representation into a corresponding message having the communication format specified by the interaction standard, using format conversion (abstract; col. 1-3).
- 2. In reference to claims 2 and 9-10, Knauss discloses a method and system:
 - c. receiving a message in the communication format from the trading partner (abstract; col. 1-3); and

Art Unit: 3693

- d. automatically converting the received message having the communication format specified by the interaction standard into a corresponding message having the first data representation (abstract; col. 1-3).
- 3. In reference to claims 3-4 and 12-13, Knauss discloses a method and system:
 - e. wherein the interaction standard is one of a peer-to-peer (P2P) standard and a business-to-business (B2B) standard (col. 1-3);
 - f. wherein the interaction standard is one of RosettaNet and the Common Business Library (CBL) (col. 2).
- 4. In reference to claims 5 and 14, Knauss discloses:
 - g. a business internal business process includes at least one workflow (col. 8).
- 5. In reference to claim 6, Knauss discloses a method and system:
 - h. wherein the step of automatically converting the message having the first data representation into a corresponding message having the communication format specified by the interaction standard retrieving a service definition (abstract, col. 2-3; col. 6-8);

Art Unit: 3693

- i. retrieving a mark-up language document template; and preparing a mark-up language message that is based on the mark-up language document template (abstract, col. 2-3; col. 6-8).
- 6. In reference to claim 7, Knauss discloses a method and system:
 - j. wherein the step of automatically converting the received message having the communication format specified by the interaction standard into a corresponding message having the first data representation includes:
 - i. retrieving at least one XQL query; and
 - ii. executing the XQL query to extract the data from the reply (col. 2-3).
- 7. In reference to claim 11, Knauss discloses the method and system:
 - k. Wherein the trading partner conversation manager automatically maps a first message with the first data representation into a corresponding first message in the communication format (abstract; col. 2); and
 - I. Automatically maps a second message in the communication format into a corresponding second message in the first data representation (abstract; col. 2).

Art Unit: 3693

8. In reference to claims 18-20, Knauss discloses a method and system wherein the step of automatically converting the received message having the communication format specified by the interaction standard into the corresponding message having the first data representation includes the steps of retrieving a service name and XQL queries; parsing the request and extracting data; starting the service and passing data; obtaining service results; retrieving an XML template; preparing an XML response; sending the XML message; and returning control to the workflow server (abstract; see at least col. 2-4; col. 6-11; figures 9-11). In reference to claims 21-22, Knauss discloses interaction flows (col. 8).

Response to Arguments

8. Applicant's arguments with respect to claims 1-14 and 18-22 have been considered but are most in view of the new ground(s) of rejection.

Conclusion

9. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Art Unit: 3693

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jocelyn Greimel whose telephone number is (571) 272-3734. The examiner can normally be reached on Monday - Friday 8:30 AM - 4:30 PM EST. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, James Kramer can be reached on (571) 272-6783. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Art Unit: 3693

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
